**Menu Design**  
**Upstairs Bistro Menu Remake**

The project assigned was to remake a menu. The color choice comes from a desire to be bold, as well as a play off of one of the colors from the Upstairs Bistro logo. The size of the menu is tall to create similarity between the bottle of wine on a customers table and what they are reading. The typeface choices are also there to play off of that idea.

The take-out menu (below) was more of a challenge as there are a lot of items on the menu. The menu is an accordion fold instead of a gate fold because it looks better sitting up on a table--again playing with the idea of a wine bottle standing next to it.
